PROFILE

Computer Science graduate and Associate Software Engineer with experience in designing, developing, and collaborating within agile teams to deliver scalable solutions. Maintain production systems, from requirements gathering and prototyping to testing and deployment. Strong communicator and problem solver with a proactive approach to learning and delivering high-quality outcomes.

TECHNICAL SKILLS

- Languages   **:JAVA, HTML, CSS, JavaScript**
- Databases   **:MySQL, DbVisualizer**
- Frameworks   **:Angular, Spring Boot**
- Other   **:Grafana, JasperSoft**

- Testing   **: Postman, SonarQube**
- Version Control, CI/CD **: Git, Tortoise SVN, Jenkins**
- UI Design   **: Figma**
- Documentation   **: DokuWiki**

PROFESSIONAL EXPERIENCE

1. Associate Software Engineer (Yoors - Colombo 3)   **August 2024 - Present**

i. (Projects - Insurance Management Systems)
(Angular| DbVisualizer | Vs Code | Tortoise SVN | Postman | SonarQube | Jenkins | JasperSoft | Figma)
- Developed modular and maintainable Angular components following industry-standard front-end architecture.
- Implemented responsive UI layouts ensuring compatibility across desktops, tablets, and mobile devices.
- Integrated front-end modules with RESTful APIs in collaboration with backend engineering teams.
- Enforced code quality standards using SonarQube, reducing defects and improving long-term maintainability.
- Participated in Agile ceremonies, coordinated with QA teams, and supported timely deployment of production-ready releases.

ii. (Projects - Web Analytics Dashboard)
(Angular | TypeScript | Grafana | Figma)
- Integrated complex Grafana dashboards using secure embedding techniques, providing stakeholders with interactive visualizations of KPIs such as unique users, bounce rates, and event trends.

2. Intern Software Engineer (Kapruka Holdings PLC (KPHL))   **July 2023 - January 2024**

(Project - Vendors Management System)
(Java | Angular| MySQL | IntelliJ | GIT | Spring Boot)
- Designed front-end interfaces, integrated(API) back-end data, and created endpoints.

3. Trainee People's Bank   **October 2018 - March 2019**

- Assisted in various banking operational processes. Cash handling, assisted customers, and processed transactions.

PROJECTS

- E-commerce Website – Developed a responsive web application using HTML, CSS, and JavaScript
- Insurance System – Full-stack application using Angular and Spring Boot (Ongoing)
